## EDUCATION

---

### Korea University, Korea

September 2023 – 2025, Faculty of Engineering, Brain and Cognitive Engineering – 4.25/4.5

- PI: Christian Wallraven
- Thesis: *Decoding Faces: Fine-Grained Ethnicity Categorization of East Asian Faces by Humans and Machines*

### Yeditepe University, Turkey

September 2018 – 2022, Faculty of Arts and Sciences, Psychology (in English) - 3.94/4

- PI: Dr. Funda Yıldırım
- Undergraduate Research Project: *Masking emotions: How does perceived gaze direction affect emotion recognition in masked faces? – An eye-tracking study*

September 2016 – 2021, Faculty of Arts and Sciences, Sociology (in English) - 3.91/4

## HONORS, AWARDS, AND FELLOWSHIPS

---

- 2022-2025. Global Korean Scholarship. National Institute for International Education (NIIED), Government of the Republic of Korea. \$75.000.
- 2022-2023. Undergraduate Project Grant - 2209-A TUBITAK (Scientific and Technological Research Council of Turkiye) [Effects of perceived gaze direction and face mask on emotion recognition – An eye-tracking study](#). 4000 TL.
- 2022. High Honors Student - Faculty of Arts and Sciences, Psychology
- 2021. High Honors Student - Faculty of Arts and Sciences, Sociology

## RESEARCH EXPERIENCE

---

### Research Assistant, Cognitive Systems Lab

September 2023 – present, Korea University, Seoul

Principal Investigator: Christian Wallraven

- **Project 1:** The importance of external features for identifying ethnicity: Testing Korean, Japanese, and Chinese faces in a Korean cultural background. (completed)
- **Project 2:** Comparative analysis of human and machine learning performance in fine-grained ethnicity-based face recognition (completed)
- **Project 3:** Perceptions of attractiveness and trustworthiness in East Asian faces: How Koreans distinguish Korean, Japanese, and Chinese ethnicities (completed)

### Undergraduate Research Assistant, Computational Neuroscience Visual Perception Lab

September 2020 – 2022, Yeditepe University, Istanbul

Principal Investigator: Dr. Funda Yıldırım

- **Project 1:** [Effects of perceived gaze direction and face mask on face perception](#)
- **Project 2:** [Audiovisual side of uncanny valley](#)

### Research Assistant

September 2020 –2022, Yeditepe University, Istanbul

Principal Investigator: Dr. Pınar Ugurlar

- **Project 1:** Background effect on online lecture
- **Project 2:** Self-other overlap and economic decision-making game

Responsibilities: Designing experiment, data collection

### Project Assistant

*September 2020 –2021, Yeditepe University, Istanbul*

Principal Investigator: Dr. Baris Gencer Baykan

- **Project:** Project for monitoring gender equality in the media

Responsibilities: Data collection, and analysis.

## **Summer Research Assistant**

*June 2019- August 2019, Koc University Principal Investigator:*

Aysegül Özsomer Tunalı

- **Project:** A closer look at the relationship between brand equity and marketing standardization

Responsibilities: 55 semi-structured interviews with employees at Ford.

## **SKILLS**

---

SPSS, Psychopy3, Prism, MATLAB, Python, Eye-tracking, fMRI (spm), R, EEG

## **LANGUAGES**

---

- **Turkish**-Native
- **English**-Advanced
- **Korean**-Advanced (TOPIK 6)

## **CERTIFICATES**

---

- Electrophysical and Psychophysical Implementations with Arduino -Yeditepe University
- EEG use in cognitive neuroscience research: Basic and advanced analysis techniques - Bilkent University
- Eye-tracking Methods - Bilkent University

## **MEDIA**

---

[Interview](#) with Cansu Malak&Fundu Yıldırım on “Effects of perceived gaze direction and face mask on emotion recognition” project

## **VOLUNTEER EXPERIENCE**

---

### **WORKAWAY-KOREA**

*August 2019 - October 2019*

ESL teacher

### **AIESEC Global Volunteering-Ukraine**

*2017-2018*

Supporting social and linguistic skills of the marginalized communities.
